Schedule an individual consultation (hyperlink <https://prehealth-val-bennett.youcanbook.me/>) to request permission to register for one of her Fall 2022 courses for Pre-Health students.

If you need help choosing a health career....

KHS 110 Section 03 Introduction to Health Science

Wednesdays 4-5pm, Bradley Hall room 225

Course Description: Health care professions, terminology, concepts in health care, and basic knowledge and skills of those in health science. This section is open (with permission) to students from ANY major who are exploring or deciding between health career options (pre-med, pre-PA, pre-dental, pre-pharmacy, pre-vet, etc.). Includes guest speaker series of healthcare professionals. (1 credit hour)

If you need help choosing a major to prepare for your health career....

AEP 105 Section 02 Student Planning Seminar II: Health Career Exploration

Mondays 4-5pm, Bradley Hall room 225

Course Description: For students needing additional assistance in choosing a major, and interested in exploring various Bradley majors related to health professions. Focuses on a student's better understanding of his/her own personal attributes. Through an individualized set of assessments, discussion, and meeting with faculty, a student will be assisted in determining personal characteristics which may indicate appropriate academic majors for consideration in preparation for various health career goals. (0 credit hour; Pass/Fail)

Be sure to [register](#) with the Health Professions Advising Center to receive event invites, reminders, and monthly newsletters.
