

Saving a Web Page as a PDF

To preserve the text on a web page, save it as a PDF.

In Google Chrome:

1. Click the **More** icon (three vertical dots) at the top right of the Chrome window.
2. Click **Print**.
3. Under **Destination**, click **Change**.
4. Under **Local Destinations**, click **Save as PDF**.
5. Click **Save**.
6. Select a destination and enter a filename.

In Mozilla Firefox:

On a Mac:

1. Click the **Menu** icon (three horizontal lines) at the top right of the Firefox window.
2. Click **Print**.
3. In the **PDF** menu, click **Save as PDF**.
4. Select a destination and enter a filename.
5. Click **Save**.

On a PC:

1. Click the **Menu** icon (three horizontal lines) at the top right of the Firefox window.
2. Click **Print**.
3. Click **Print** again. Then, click the **Name** menu and select **Adobe PDF**.
4. Select a destination and enter a filename.
5. Click **OK**.
